

Items From Home Policy

We highly recommend that all personal items from home, that are required for program, are clearly labelled with children's names to prevent any loss. Though we recognize that specific items (crib sheet, blanket, etc.) are important for children to bring into the program, any other items brought into the program are the responsibility of the child and/or family. We are not responsible for lost or broken toys and strongly encourage families to leave them at home.

Personal electronic are not permitted into the program. Any specialized or adaptive technology required for a child's learning, will be approved by the Director. Ridge Kids Playcare is not responsible for lost, damaged, or stolen equipment.

Pets and animals are incredibly valuable to children's learning but with consideration of all children attending the programming, living animals will not be brought into the facility without approval of families and/or Director.
